

To all Allendale Country Club Members, Guests and Employees

Allendale Country Club is closely monitoring the news coming out of the federal, state and local. We have received the news from the state on all non-essential business to close as of today at noon. We have already sent a request to the state asking if Golf Courses can be on the essential list based on what we can provide to the community from a physical and mental health outlet. Mass Golf has also sent communication to the governor's office to request the same. As we wait for a response from the state on our request we will remain open. Our team is working hard to ensure that every precaution is being taken in line with the best practices outlined by the CDC. In addition to our already high cleanliness standards, Allendale Country Club is making the following additional efforts:

- All commonly touched surfaces are being sanitized frequently throughout the day
- Encouraging players to walk instead of riding
- Golf Carts will have a limited hours of operation
- Golf carts are being sanitized before being assigned to any players
- Single riders only excluding family members living in the same household
- All Golf carts have a COVID-19 message for folks to help clean their own carts at the end of there rounds
- Proper personal sanitation practices are being reinforced with all team members
- Team members are constantly being observed for any signs of illness and encouraged to stay home if not feeling well
- Please use the online tee time reservation as much as you can as this will allow us to move people in and out of the shop in a quickly manner
- We will also look to implement our own Social Distancing in the Pro Shop and will only allow minimal number of folks at one time
- Members do not need to come into the Pro Shop, please come to the window and our staff will check you in
- We have implemented raised cups and ask everyone to leave the pins in
- The Bag storage will be closed until further notice

We are closely monitoring all developments regarding COVID-19 and will continue to adjust our operations and procedures as necessary to ensure safety and enjoyment for all. Our top priority will always be creating a safe environment for our employees, members and outside guests. Should you have any questions or concerns please do not hesitate to contact a member of our team.

Thank you all for your consideration and patience during this time of uncertainly.
